

DUAL CLUTCH TRANSMISSION FLUID DATA SHEET

Check with Beck

DC-1

252-5000

Semi-Synthetic OE Quality Dual Clutch Transmission Fluid, designed for the demanding anti-wear and friction behavior requirements of Volkswagen's DSG transmissions.

Specific to vehicles requiring Volkswagen's Direct Shift Gearbox (DSG) Oil.

Check owner's manual for proper application.

Beck/Arnley Premium OE Quality Dual Clutch Transmission Fluid (DC-1) provides slip-free high torque transmission rates and thus provides spontaneous and sporty shifting during the whole drain interval. The special base oil matrix provides stable friction level and maximum wear protection even under the most severe conditions.

Use this fluid in your DSG Volkswagen Transmission for superior protection and shifting performance experienced during everyday use and performance use.

FORMULATED FOR OE REFERENCE NUMBER

AUDI	G 052 182 A2
VOLKSWAGEN	G 052 182 A2

ATTRIBUTES

APPEARANCE	Yellow/Brown
FLASH POINT	>200°C/392°F
VISCOSITY AT 40°C	39.7mm ² /s
VISCOSITY AT 100°C	7.9 mm ² /s
DENSITY AT 15°C	0.840 g/ml
