Euro SF+ Concentrate

252-1021
US/Canada

Euro SF+ Concentrate is an advanced long-life antifreeze concentrate based on monoethylene glycol. Contains no nitrates, amines, phosphates or silicates. **SILICATE FREE.** Provides reliable protection for use in aluminum or iron engines. Euro SF+ Concentrate provides superior corrosion and rust protection of water-cooled automobile engine cooling system components.

All European coolants come with an easy to use four liter bottle with a retractable and collapsible spout.

ADVANTAGES AND BENEFITS

- Suitable for iron and aluminum engines
- Superior anti-corrosion properties allow longer life
- Silicate free to meet manufacturer requirements
- Protection against foaming and cavitation
- Matches OE coloration

IN COMPLIANCE WITH THE FOLLOWING SPECIFICATIONS

- ASTM D3306
- AFNOR NF R 15-601
- BS 6580
- SAE J1034
- FORD WSS-M 97B44-D
- MAN 324 SNF
- MTU MTL 5048
- VW TL 774-D/F (G12+)

FORMULATED FOR

OE REFERENCE NUMBER

LAND ROVER	LRN2279
AUDI/VOLKSWAGEN	G012A8FA4

ATTRIBUTES

APPEARANCE	Magenta (purple)
DENSITY AT 20°C	1.124 g/cm ³
FREEZING POINT	-70°C/-94°F
FLASH POINT	>110°C
BOILING POINT	>160°C/320°F**
WATER CONTENT	<3%
PH-VALUE	~7.5 - 9.0
MIXING RATIO W/ WATER	50/50
BOILING POINT W/ WATER	107°C /225°F**
FREEZING POINT W/ WATER	-37°C/-35°F

**Using a 15 psi (103 kPa) pressure cap at sea level

UNIT SIZE

1.057 GAL. (4.0 LITERS)

PART NUMBER

252-1021
