

685

Premium 23,000 lb. Brake Lining

Preferred by an industry that demands the best.

Abex® 685 is a high performance, OE Grade brake lining with superior stopping power and exceptional block life under all conditions.

PRODUCT PROFILE

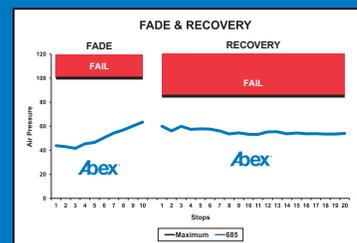

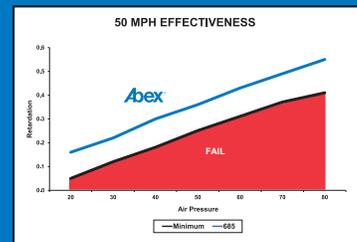

- FMVSS 121 rated 23,000 lbs.
- 165 AL Factor (30 x 5.5)
- OE Grade
- Crack resistant
- Copper free
- Low swell and growth
- Excellent fade, recovery and retardation
- Excellent lining life and drum compatibility
- Manufactured in ISO TS 16949 certified plants
- Superior flexural strength and modulus of elasticity to resist cracking
- Superior stopping power

**FMVSS 121
BRAKE STANDARD*
Typical Dynamometer Plot**

Test Parameters:

- Brake – Meritor 16.5 x 7 Q Plus
- Axle Load – 23,000 lbs.
- AL Factor – 165 (30 x 5.5)

*Tested internally by Link-certified dynamometer.

APPLICATIONS

Tandem Tractor/Trailer	Spread Tandem	Multiple Trailer	Single Tractor/Trailer	Straight Truck
Container Chassis	Livestock Trailer	Car Hauler	Dry Bulk	Tanker
Flat Bed Trailer	Van Trailer	Logging Trailer	Single Axle Dump	Tandem Axle Dump
Refuse Truck	Tandem Axle Mixer	School Bus	Fire Truck	

For years, cracked brake shoes were considered an expected outcome, simply the cost of doing business. Until Abex® stepped up. We created the premium friction that has significantly reduced cracked brake shoes. Of course, this reduces downtime and your total CPM. So ask for the genuine Abex friction. Because there's no substitute for smart business.

Federal-Mogul Motorparts is one of the largest OE and aftermarket manufacturers of friction materials globally. This market leadership is the result of over 100 years of unrelenting dedication to advanced engineering, premium quality and comprehensive coverage, which is why Abex is the premium brand of choice for many of the nation's largest fleets and municipalities.

Abex premium formulations have a long history of superior, consistent and reliable performance, which has earned the trust of our customers. In addition, Abex also provides optimum stopping power and superior value for the most demanding applications.

All Abex products are identified by the edge code printed on the material. **Other friction brands may claim to be equal to Abex but, if it doesn't say Abex, then it's not Abex!**
