

REPAIRSOLUTIONS TOP 100 TRENDING GASKET SETS

THE PARTS YOU NEED, WHEN YOU NEED THEM

With 100 years of dedication to the repair environment, you can trust Fel-Pro[®] to have the gaskets and seals you need, when you need them. Fel-Pro makes stocking recommendations to your suppliers so they know when to move inventory from our shelves to theirs. These recommendations are based on constant research into vehicle repair cycles, the repairs you're performing and the technology required for the repair.

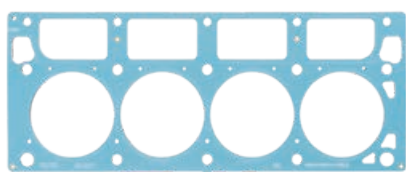

All of this means that when you call your local Fel-Pro supplier, they'll have the parts needed for the vehicles showing up in your service bays. These 100 gasket set numbers are for the fastest-growing applications based on the latest sealing trends. Check it out, because you'll be installing them soon!

ES72390

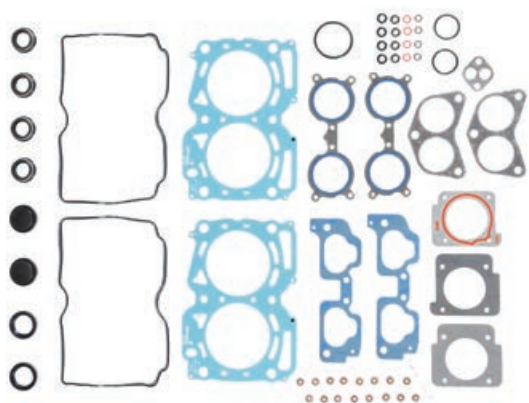

Torque-to-Yield head bolts used with a variety of head sets including the latest LS applications.

26192PT

Fel-Pro[®] PermaTorque[®] MLS head gaskets feature specialized aftermarket coatings that help seal rougher surfaces and, where applicable, the Patented LaserWeld[™] stopper layer provides a strong combustion seal and prevents over-compression of the gasket.

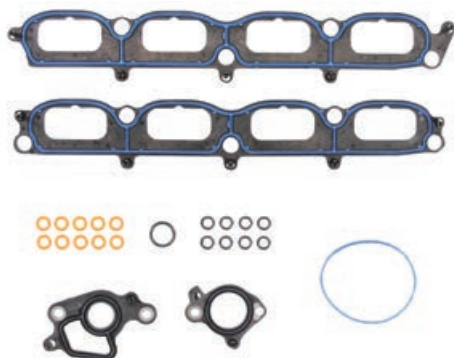

HS26415PT1

Fel-Pro's HS sets include all of the gaskets, seals and sealing technologies needed for complete head gasket repair.

MS96696

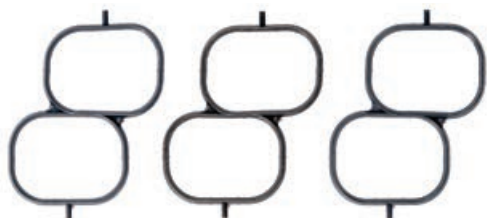

When the plenum and other components must be removed for intake gasket replacement, those components are included in Fel-Pro MS intake gasket sets.

OS30782

RTV is messy and can cause problems if pieces fall into the oil pan. That's why Fel-Pro® designs problem-solving oil pan gaskets to seal applications where the OEM used RTV.

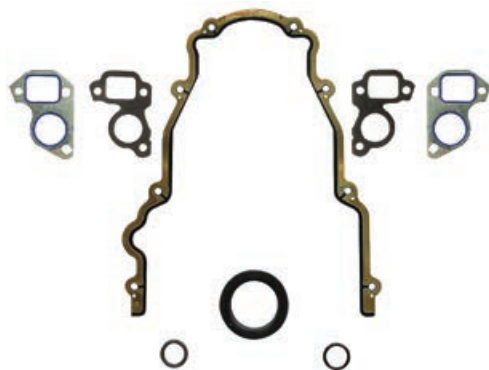

MS96786

Fel-Pro PermaDry® premium molded rubber intake manifold gaskets use application-specific rubber compounds. Designed for vehicles originally equipped with molded rubber gaskets.

TCS45993

Fel-Pro TCS timing cover sets include the crankshaft seal and all other applicable parts. Each component is made with the right technology and materials for the application.

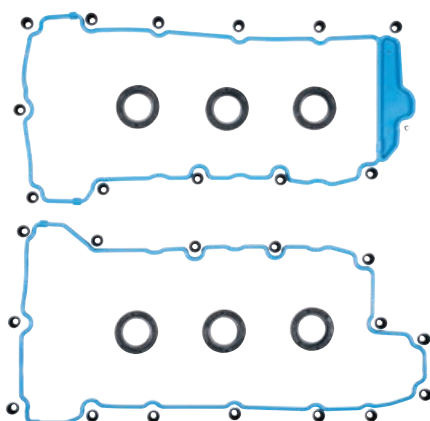

VS50504R1

PermaDry® valve cover gaskets are designed and validated for fit, form and function in applications originally equipped with molded rubber gaskets. Additionally, Fel-Pro VS valve cover gasket sets include all gaskets, seals, grommets and more, so only one set is needed for complete repair.

VS50808R

Fel-Pro VS valve cover gasket sets include spark plug tube seals, grommets, and any other components needed for complete repair and leak prevention.

Cooling System Gaskets

From molded rubber to composite, Fel-Pro® has application-specific materials and solutions to seal cooling system components. Gaskets include water outlet gaskets, thermostat gaskets and water pump gaskets and more.

Drivetrain Gaskets

Fel-Pro provides the products to not just seal drivetrain components, but to make the job easier. Fel-Pro drivetrain gaskets materials include molded rubber, composite with Printoseal® sealing beads, Blue Stripe® composite, embossed steel and more.

Exhaust System Gaskets

Fel-Pro exhaust system gaskets effectively reseal exhaust system joints and surfaces and are designed to withstand the heat and motion present in exhaust systems. Fel-Pro gaskets and sealing products include manifold gaskets, pipe flange gaskets, converter / connector / crossover gaskets, EGR gaskets, turbocharger mounting gaskets and more.

Not only does Fel-Pro® support you with the parts you need, when you need them, but we encourage consumers to address vehicle leaks. The Fel-Pro Stops Leaks campaign includes helpful information on different types of leak repair and urges vehicle owners to rely on their automotive service or parts professional to diagnose the problem and replace the gasket if needed.

Visit FelPro.com/stopsleaks to see the full campaign.
