

Our Gaskets at a Glance

This quick-reference sheet gives you an overview of the Performance and Marine Sealing technologies and products you have to offer with Fel-Pro®. Touching on several Fel-Pro essentials, it's a great starting point for understanding the brand's benefits both for you and your customers.

PERFORMANCE SEALING TECHNOLOGIES

You'll find Fel-Pro® Performance gaskets keeping engines sealed in the world's most punishing race environments, from professional stock car racing to drag racing to off-road. Fel-Pro Performance sealing technologies include:

Fel-Pro Performance MLS with LaserWeld™ Head Gaskets

- Durable full-hard stainless steel layers for strength
- LaserWeld stopper layer combats head lift
- Advanced polymer coating withstands scrubbing

Fel-Pro Performance Composite Head Gaskets

- Stainless steel combustion armor
- Wire ring combustion seal
- Solid steel core

Fel-Pro Performance Intake Manifold Gasket Sets

- Available for the widest array of OE and aftermarket cylinder head and port configurations
- Available in thickness ranging from .030" to .120"

Fel-Pro Performance Exhaust Manifold Gasket Sets

- High-density fiber facing material
- Perforated steel core
- Seals slightly warped surfaces

Fel-Pro Molded Silicone Rubber Valve Cover Gasket Sets

- Rigid carrier simplifies installation
- Multiple sealing beads eliminate leak paths
- Built-in compression limiters prevent overtightening

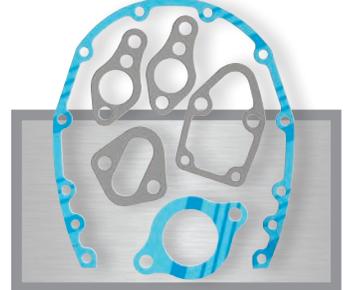

Fel-Pro Cork-Lam® Valve Cover Gaskets

- Metal core has cork-rubber bonded to both sides
- Extra thick
- Exceptionally good torque retention

Fel-Pro Molded Silicone Rubber Oil Pan Gasket Sets

- One-piece design simplifies installation
- Rigid carrier ensures dependable sealing
- Built-in compression limiters prevent overtightening

Fel-Pro R.A.C.E. Sets

- Remainder to Assemble Complete Engine
- Combine with oil pan gasket sets to provide every gasket needed for complete lower engine service

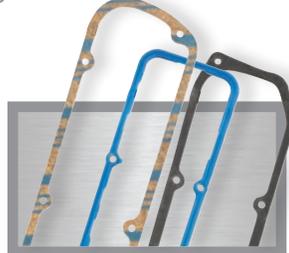

MARINE SEALING TECHNOLOGIES

Fel-Pro® is the undisputed leader in marine gaskets. From stainless steel construction and premium molded-rubber valve cover and oil pan gaskets, to problem-solving and easy-to-install designs, Fel-Pro provides dedicated marine engine sealing technology with Fel-Pro gaskets.

Fel-Pro Marine PermaTorque® Head Gaskets

- Stainless steel construction throughout
- Anti-friction coating (plus Printoseal® if required)
- Rubber/fiber facing material reinforced with KEVLAR®

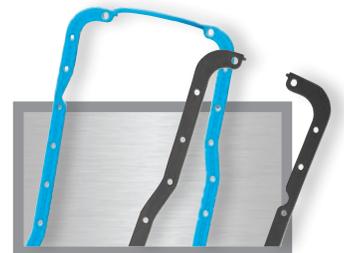

Fel-Pro Marine Valve Cover Gasket Sets

- Available in a full range of designs and technologies
- Molded silicone rubber
 - Rubber-coated fiber
 - Fel-CoPrene®
 - BlueStripe® cork rubber

Fel-Pro Marine Intake Manifold Gasket Sets

- Fits a wide variety of OE and aftermarket cylinder head and port configurations
- Resists coolant, gasoline, alcohol and oil
- Printoseal® sealing beads provide extra sealing strength around ports

Fel-Pro Marine Oil Pan Gasket Sets

- Available in a full range of designs and technologies
- Rigid core molded silicone rubber
 - Rubber-coated fiber
