

# Premium Sealing Technologies

## **FELPRO** **PERMATORQUEMLS**

### Head Gaskets

#### Key Innovations

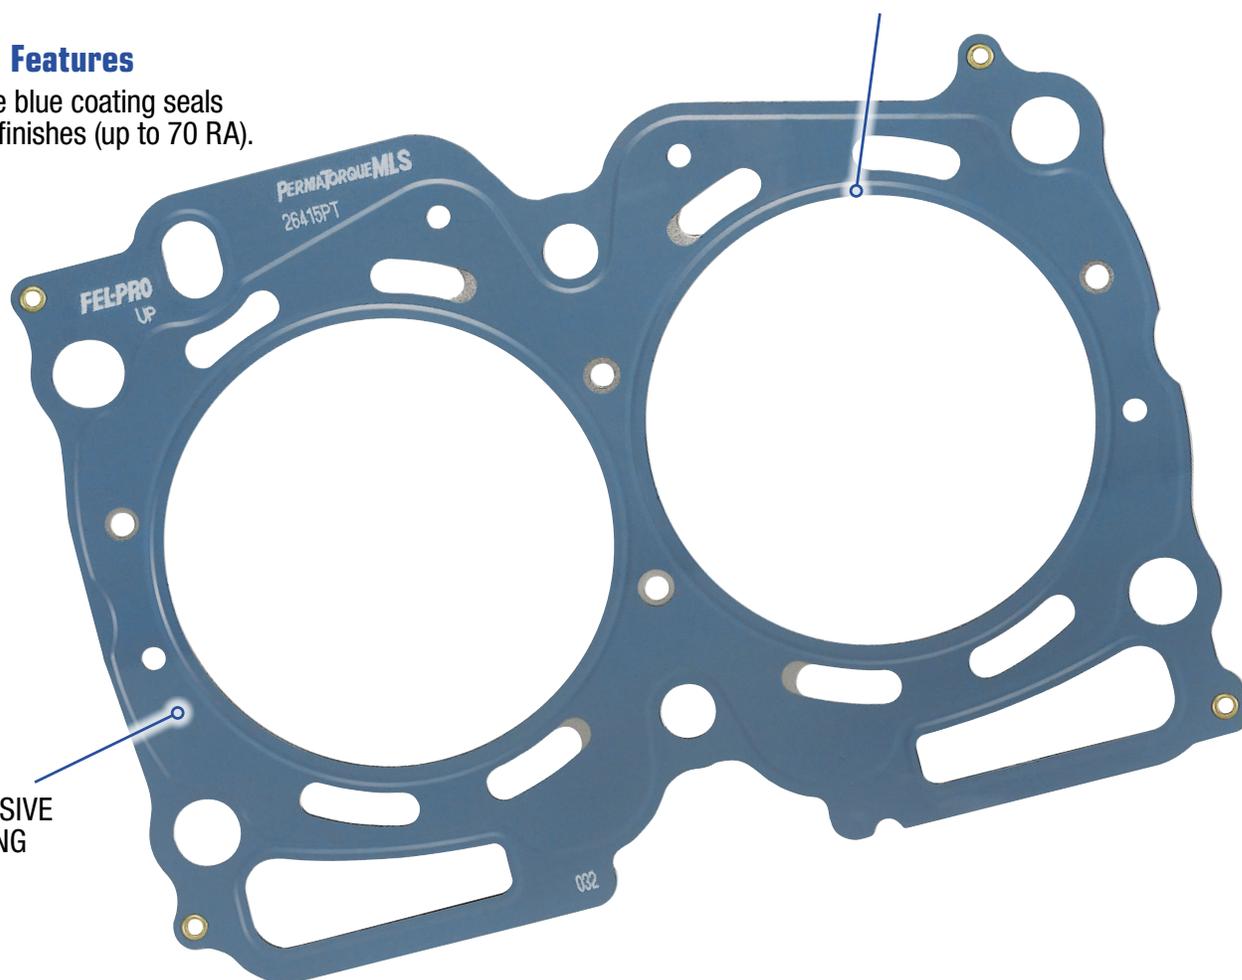

**1:** LaserWeld™ Stopper Layer Technology for stronger combustion sealing and decreased cylinder head lift.

#### Additional Features

**2:** Exclusive blue coating seals rougher finishes (up to 70 RA).

**1** LASERWELD™ STOPPER LAYER TECHNOLOGY

**2** EXCLUSIVE COATING

**SALES TIP:** MLS (multi-layer steel) technology is now the industry standard among OEMs, in head gasket design due to the increased casting motion encountered in smaller, lighter and more powerful engines. Counterpersonnel should always sell an MLS replacement head gasket for vehicles originally equipped with MLS gaskets.

**OPPORTUNITY:** Millions of engines equipped with MLS head gaskets have entered the prime 8-18 year old repair cycle. When selecting a replacement head gasket – there's simply too much at stake. Selecting Fel-Pro® PermaTorque® MLS is your customer's guarantee that the part is the ideal replacement head gasket for the MLS-equipped engine.
