# WINTER EXTREME™

## THE BEAM BLADE FOR EXTREME WEATHER

ANCO® Winter Extreme™ is engineered to take on the toughest weather winter can throw at you. This new low profile beam blade technology keeps ice and snow from adhering for a smoother, clearer and quieter wipe.

### OE

SIZE	STOCK NUMBER	SIZE	STOCK NUMBER
15"	WX-15-OE	21"	WX-21-OE
17"	WX-17-OE	22"	WX-22-OE

19"	WX-19-UB	28"	WX-28-UB
20"	WX-20-UB		

### DURAKLEAR® PLUS

Exclusive, advanced rubber compound provides a consistent streak-free wipe

### GEOCORE

Lightweight flexible protection from ice scraper damage and road debris

### ARCTIC ARMOR

Hydrophobic spoiler repels precipitation and prevents ice build-up

### ARTICULATED CONTACT™

Patented Technology provides superior blade-to-windshield contact

Steel Reinforced End Caps maintains blade integrity by preventing end cap failures due to impact and slam downs.

# CONTOUR

## PREMIUM ALL SEASON PERFORMANCE™

### The Premium Upgrade Beam Blade Replacement

**OE Version** — Provides out-of-the-box fitment for vehicles equipped with beam blade technology.

- Preinstalled connector covers, pinch tab, pinch tab push button and 22mm bayonet.
- Additional connector covers newer 22mm side pin applications.

SIZE	STOCK NUMBER	SIZE	STOCK NUMBER

MOTORPARTS

## PRODUCT LINEUP

### Beam Blades

Utilizing advanced technology for all-season performance – beam blades have an infinite amount of pressure points for better-blade-to-windshield contact. Designed with a low profile to be more aerodynamic, beam blades prevent lift and noise for a smoother quieter wipe and since beam blades have less moving parts and no superstructure, ice and snow can't adhere to them. All ANCO® Beam blades are available in 14-28" lengths.

### CONTOUR

#### PREMIUM ALL SEASON PERFORMANCE™

##### The premium upgrade beam blade replacement

- OE Version – Provides out-of-the-box fitment for vehicles equipped with beam blade technology. Preinstalled connector covers pinch tab, pinch tab push button and 22mm bayonet. Additional connector covers newer 22mm side pin applications.
- UB Version – Equipped with the proprietary KwikConnect® Installation System, these premium blades provide quick and easy wiper blade replacement for OE J-hook applications or when upgrading vehicles originally equipped with conventional style wiper blades.
- N Version – Designed for 19mm bayonet and side pin applications – seen primarily on late model Volkswagen Beetles, Jetta, Passat, Audi and BMW applications.

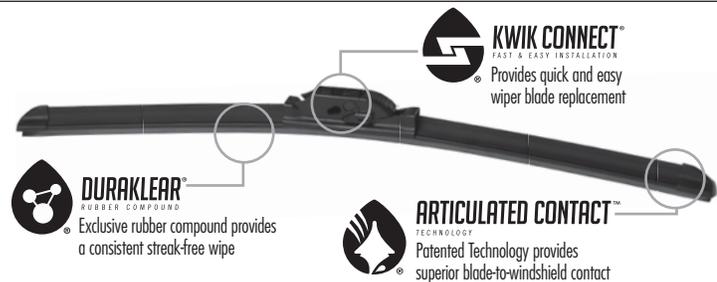

### PROFILE BLADE

#### ADVANCED TECHNOLOGY FOR EVERY VEHICLE™

##### The affordable beam blade replacement that can also be used for vehicles originally equipped with a conventional style wiper blade

- Low profile connection system
- 98% coverage with only 12 SKU's
- Symmetrical spoiler – to allow for easy installation on vehicles with opposing wiper arm systems
- Installed connector covers 9x3, 9x4 hooks and 3/16" and 1/4" side pins. Additional connector covers pinch tab, 22mm bayonet, 22mm side pin, and pinch tab push button.

### Hybrid Blade

Latest technology in wiper blades – integrates the aerodynamic features of a beam style wiper with the evenly distributed pressure points of a conventional structure for exceptional wipe performance. The ANCO hybrid blade is available in 14"-28" lengths.

### TRANSFORM

#### THE NEW LOOK OF PERFORMANCE™

##### The replacement blade for vehicles that came equipped with hybrid technology or an upgrade for vehicles that utilize an OE J-hook design

- Integral spoiler improves performance at high speeds
- Secondary linkage with bowed flexor optimizes the wipe performance across the entire windshield

## Conventional Blades

Replaces original equipment with a quality that matches the style, fit, and performance of the blade that was originally removed from the vehicle. All ANCO® conventional blades are available in 10-28" lengths.

### *AeroVantage*

#### CLEAR WIPE AT ANY SPEED™

##### The premium upgrade conventional blade replacement

- Aerodynamic design maintains wipe at highway speeds
- Provides a streak-free wipe in any driving environment

### *31-Series*

#### RELIABLE WIPER PERFORMANCE™

##### The affordable conventional blade replacement

- Vented bridge and high performance polymer ensure OE fit and function
- Consistent, clear wipe in any driving environment

### *14-Series*

#### THE RIGHT BLADE AT THE RIGHT PRICE

- Natural rubber element for a streak-free wipe
- All-metal structure for dependable durability
- Vented symmetrical bridge prevents wind lift

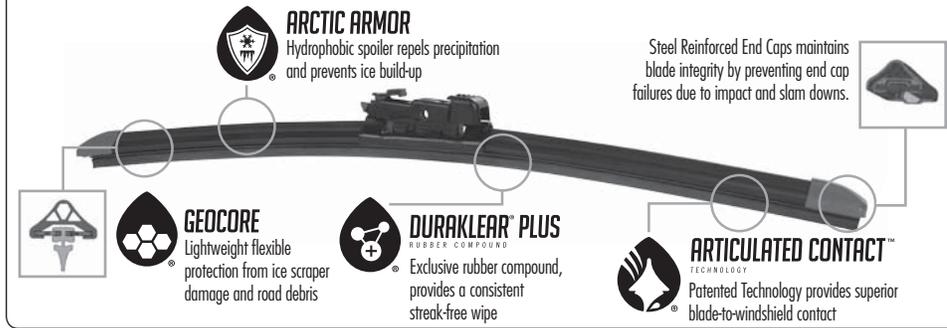

## Specialty Blades

Use exclusive designs and materials to ensure clear windshields in any driving condition.

### **WINTER EXTREME™** THE BEAM BLADE FOR EXTREME WEATHER

The specialty blade made for extreme weather conditions

- OE Version – Available in 15", 17", 18", 19", 20", 21", 22", 24", 26" and 28" lengths
- UB Version – Available in 14", 16", 17", 18", 19", 20", 21", 22", 24", 26" and 28" lengths

### **WINTER BLADE™** CLEAR WIPE IN EXTREME WEATHER™

The specialty blade made to be more durable in winter conditions

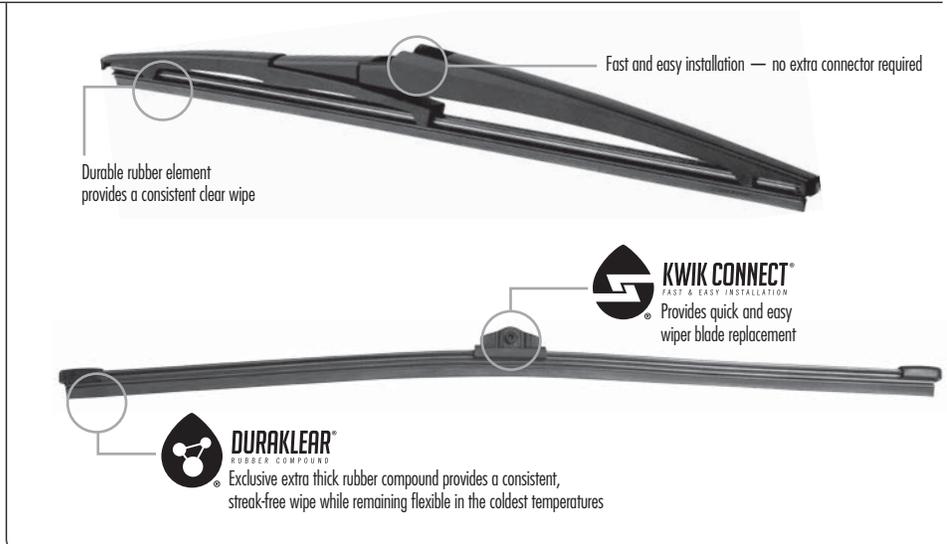

- Equipped with the proprietary KwikConnect® Installation System, this blade provides quick and easy wiper blade replacement when upgrading vehicles originally equipped with conventional style wiper blades.
- OE Version - Provides out-of-the-box fitment for vehicles equipped with beam blade technology.
- Available in 11", 13", 15", 16", 18", 20", 22", and 24" lengths

### **REAR BLADE** RELIABLE WIPER PERFORMANCE™

The specialty blade designed for use on the rear of the vehicle

- Original equipment replacement rear wiper blade
- Arm connector types available:
  - Roc Lock 2
  - Roc Lock 3
  - Slide Pinch
  - Snap Claw
  - Cross Pin
  - Trunion
  - Bayonet
  - Pinch tab
  - Bull Nose
  - Cross Rivet
- Available in 8" to 16" lengths, depending on connections

## Specialty Blades (CONTINUED)

# ANCO *Vintage*

### ORIGINAL EQUIPMENT REPLACEMENT

The specialty blade designed for your classic vehicle

- Stainless steel structure
- Anti-glare finish
- Blade design matches OE replacement
- Available in 9", 10", 11", 12", 13", 15", 16" and 18" lengths

Stainless steel structure

## Heavy Duty Blades

### CLEAR-FLEX WIPER BLADES

- Heavy-duty construction throughout
- For the toughest wiping jobs on trucks, buses, streetcars, locomotives, ships and boats.
- Available in either high-quality natural rubber or ANCO® "HYCAR" synthetic rubber
- Four styles available: Narrow saddle (.200/.250); Hy-Bridge (.200/.250 - Highly curved windshield); 1/2" saddles; 1/4" side pin

### TEN-EDGE WIPER BLADES

- Non-refillable
- Available in either high-quality natural rubber or ANCO® "HYCAR" synthetic rubber
- HYCAR synthetic rubber for use when wiping element comes in contact with petroleum based products

### MEDIUM DUTY WIPER BLADES

- For commercial vehicle applications
- Extra heavy-duty construction for wide saddles and 12mm J-Hook

### HEAVY DUTY WINTER WIPER BLADES

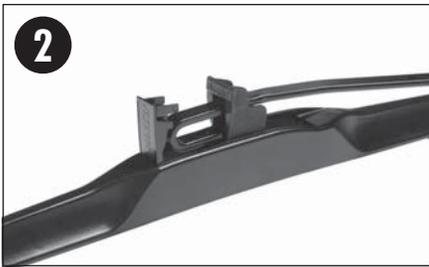

- Super heavy duty wiping element to remove the heaviest rain, sleet or snow
- Durable rubber cover to prevent ice and snow build-up in wiper structure
- Riveted metal frame links for greater strength and quality wipe

## Hybrid Blade Assembly and Connection

*For Installations with a Standard Hook Connection...*

Remove the adapters shown for the following circumstances:

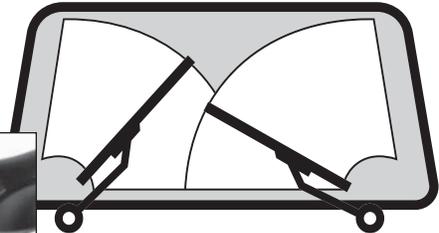

*For hook arm with plastic beauty cap on top...*

Install loose packed adapter.

*For the passenger side of an opposed wiper system...*

Reverse installed adapter.

## EXCLUSIVE FEATURES

### **KWIK CONNECT®**

FAST & EASY INSTALLATION

- Simple to install . . . easy to remove.
- Accurate and secure snap in/snap out process.
- Preinstalled connector fits most applications.
- Improved wiper blade alignment and retention.

### **ARTICULATED CONTACT™**

TECHNOLOGY

- Patented Technology provides superior blade-to-windshield contact.
- Featured on ANCO Contour® and Profile® beam wiper blades and Winter Extreme™ specialty blades.

### **DURAKLEAR® PLUS**

RUBBER COMPOUND

- Exclusive, advanced rubber compound provides a consistent streak-free wipe.
- Featured on ANCO premium Contour® beam wiper blades, and Winter Extreme™ specialty blades, and AeroVantage® premium conventional wiper blades.

### **DURAKLEAR®**

RUBBER COMPOUND

- Exclusive rubber compound provides a consistent streak-free wipe.
- Featured on ANCO Profile® affordable beam wiper blades, 31-Series affordable conventional wiper blades and winter specialty wiper blades.

### **AEROVENT®**

DESIGN

- Aerodynamic vented bridge maintains wipe at highway speed.
- Featured on ANCO premium AeroVantage® conventional wiper blades.

### **GEOCORE**

- Lightweight flexible protection from ice scraper damage and road debris.
- Featured on Winter Extreme™ specialty blade.

### **ARCTIC ARMOR**

- Hydrophobic spoiler repels precipitation and prevents ice build-up.
- Featured on Winter Extreme™ specialty blade.

<b>59-24</b>		Blade Finish: Black Element: Natural Rubber
Fits Arm:	 1/2" SADDLE	Adapters Included:

## Element Removal

Original rubber elements can usually be removed from the blade structure with little effort and few tools. The type of blade on your vehicle will determine how the element should be removed. In many cases the element can simply be pulled from the bridge claws with your hands or a pair of pliers. Grasp the end of the element firmly and pull with constant pressure from one end of the blade.

If there is a removable end tab, pinch the sides of the end tab and pull outward. Or use a screwdriver to lift up and remove the end tab. If the end tab is not removable it should be snapped off before removing the rubber element.

## ANCO Wiper Blade Refill Product Descriptions

### Refills with Plastic Flexors:

**N-Series (N-xxR) Narrow Series Refills:** Narrow rail refills for wiper blades with square and trapezoid claws.

**U-Series (U-xxR) Universal Series Refills:** Refills for wiper blades with square claws. These refills are compatible with ANCO 31-Series wiper blades.

**W-Series (W-xxR) Wide Series Refills:** Refills for wiper blades with square claws.

### Refills with Metal Flexors:

**19-Series (19-xx) Stainless Steel Series Refills:** Premium refill for automotive applications.

**53-Series (53-xx) Clear-Flex Natural Rubber Refills:** Refills for ANCO Clear-Flex Heavy Duty Wiper Blades. These refills are made with premium natural rubber.

**56-Series (56-xx) Clear-Flex HYCAR Synthetic Rubber Refills:** Refills for ANCO Clear-Flex Heavy Duty Wiper Blades. These refills are made with HYCAR Synthetic Rubber. Recommended for when the wiping element comes in contact with petroleum-based products.

## ANCO® MC13 Connector

**Innovative ANCO® MC13 Connector covers Mini Cooper, Saab, and Smart applications with flat bayonet connection type.**

- *To be used with appropriate length Contour OE or N Series wiper blades*
- *Also compatible with Profile® Shop Pack and Winter Extreme OE blades*

YEAR	MAKE	MODEL	DS	PS
2014-13	Mini	Cooper Hard Top	18"	19"
2014-13	Mini	Cooper Convertible	18"	19"
2014-13	Mini	Cooper Clubman	18"	19"
2009-08	Saab	9-5	22"	22"
2017-16	Smart	ForTwo	20"	14"

## Wiper Arm Interference Notice

This notification is to advise you of the potential for interference between the wiper blade and wiper arm with certain installations.

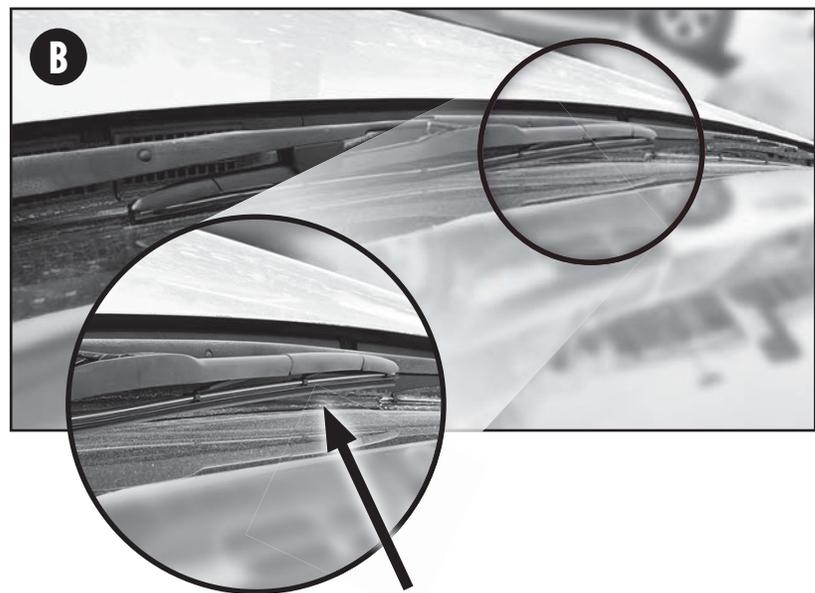

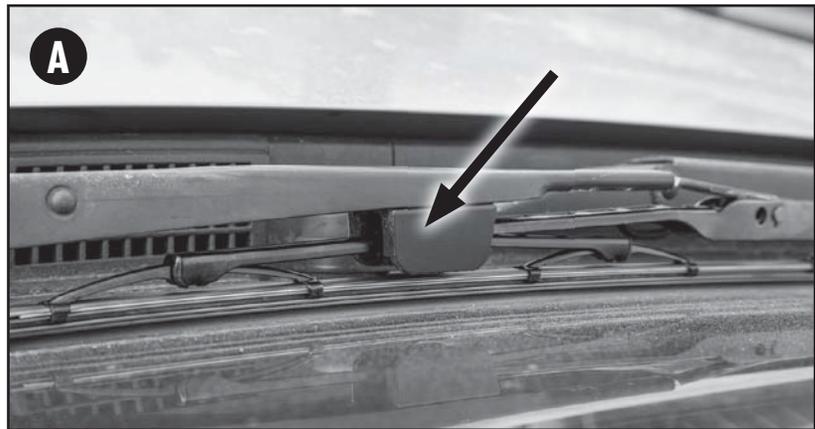

This could be due to a stabilizer guide clip (A) that comes pre-installed on the wiper arm from the factory.

This clip may not allow the replacement blade to properly interface with the wiper arm leading to abnormal blade-to-windshield contact (B).

If you encounter this interference issue, simply remove the factory guide clip from the wiper arm and re-install the replacement wiper blade.

***A list of known vehicles with this potential issue is listed below.***

MAKE	MODEL	YEAR

**General Motors**

**Part Number: 61-02**

Self-aligning cam.

**General Motors**

**Part Number: 61-05**

**General Motors**

**Part Number: 61-06**

**General Motors**

**Part Number: 61-08**

Has 1/4" I.D. discharge nozzle for late models.

**General Motors**

**Part Number: 61-12**

**General Motors**

**Part Number: 61-13**

**General Motors**

**Part Number: 61-15**

**General Motors**

**Part Number: 61-16**

Intermittent wiper delay, pulse washer functions, and park function may be achieved by transferring the circuit board and relay from the old pump.

**General Motors**

**Part Number: 61-18**

**General Motors**

**Part Number: 61-19**

Performs O.E. intermittent wiper delay and pulse washer functions. Park function is also maintained.

**General Motors**
**Part Number: 61-20**

**Ford**
**Part Number: 62-01**

**Chrysler**
**Part Number: 63-01**

Ground wire with spade connector included.

**Part Number: 64-01**

**Chrysler**
**Part Number: 64-02**

**Universal Washer Pump**
**Part Number: 65-01**

This 12 volt washer pump may be used on any domestic or import car or truck. Comes complete with wiring, electrical connectors, tubing, and instructions.

**Universal Electric Washer**
**Part Number: 66-01**

A complete 12 volt washer and reservoir assembly. Included with this system are switch, wiring harness, T-connectors, tubing, nozzles, and instructions. For replacement, use 62-01.

**Nissan**

Part Number: 67-65

**Auxiliary Parts (continued)**

**48-20**

Washer Level Switch

**48-21**

Washer Pump Check Valve

**Tubing**

**74-332**

3/32" Tubing, 50' Length

**74-764**

7/64" Tubing, 50' Length

**78-764**

3/32" & 7/64" Tubing, 6' Length of each

**Wet Arm Adapter / Washer Kits**

**48-03**

Wet Arm Washer Kit - Saddle Mounted

**48-04**

Wet Arm Washer Kit - Extension Mounted

**48-13**

Wet Arm Adapter - 2 pack

**48-16**

Wet Arm Kit

ANCO wiper arms are constructed of high quality stainless steel to meet the high torque requirements of today's equipment. Wiper arms should be replaced when damaged, worn, or when loss of proper spring tension results. Before removing any wiper arm, be sure that the blades are stopped in the normal park position.

**IDENTIFYING THE WIPER ARM SHAFT AND REMOVING THE ARM**

METRIC SCREW SHAFTS (DIN)	1/4"-28 SCREW SHAFT (SSH)
 <p>The arm is held to the threaded wiper shaft with a locking nut. For cosmetic purposes this nut is often covered with a plastic cap. Remove nut which secures arm to wiper shaft.</p> <p>When installing arm, place it over the wiper shaft, making sure the arm is in the correct park position. Tighten arm on shaft using original spring, washer and nut.</p>	 <p>Place spacer (packaged with arm) over wiper shaft to increase diameter of shaft, if required. Place new arm over wiper shaft making sure the arm is in the correct park position. Tighten arm on shaft using original spring, washer and cap nut.</p>
DOUBLE FLAT SHAFT (DFS)	5/8" SHAFT (DM-S)
 <p>Replace old knurled drivers with new 5/16" or 3/8" drivers (packaged with arm). Place new arm over wiper shaft making sure the arm is in the correct park position. Place original cap nut on shaft and tighten.</p>	 <p>When removing these large arms, it is necessary to remove the 3/8" cap nut and then loosen Allen screw located on the side of the wiper arm head. Relieve arm pressure and remove. Reverse procedure for installation.</p>
DRUM SHAFT (DM)	
 <p>The arm is held to the serrated drum using either a spring clip/tab which locks underneath the drum edge or by a slide latch.</p> <p>For arms with a spring clip/tab, relieve spring tension with an arm tool and push the clip/tab away from drum with a screwdriver, pull arm from drum.</p> <p>For arms with slide latch, lift arm to full "up" position. With screwdriver push slide latch to "out" position. Release upward pressure on arm, lift arm from drum.</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div data-bbox="1089 1031 1182 1161">  <p>Clip/Tab</p> </div> <div data-bbox="1279 1031 1390 1161">  <p>Slide Latch</p> </div> </div>	

**IDENTIFYING THE ARM LENGTH**

	
STRAIGHT DRIVE ARMS	BENT DRIVE ARMS
<p>These arms are measured from the center of the mounting head connecting hole to the center of the blade connector in a straight line.</p>	<p>These arms are measured from the center of the mounting head connecting hole to the center of the bend in a straight line plus the length from the center of the bend to the center of the blade connector. Two straight line measurements are added together to measure total length.</p>

**SPECIAL NOTES**
**PANTOGRAPH ARMS:**

Removal and installation are the same except for the idler arm which is attached with either a sliding clip or cap nut. When replacing pantograph arms not made by ANCO and used with electric wiper motors (usually American Bosch Systems) it is necessary to replace the pivot mounting plate with either a #47-19 for 3/8" double flat shaft or a #47-20 for a 5/16" double flat shaft.

**ADJUSTABLE ARMS:**

In most cases, extend adjustable arm to the same length as old arm and close extension lock. When replacing an arm that is obviously the wrong length due to damage or misapplication, adjust arm so blade clears the top of the windshield and the molding or cowl.

**WET ARMS:**

When removing a wet arm, always be sure to disconnect the hose from the vehicle before pulling arm off. Inspect the hose and nozzle for cracks or loose fit before installation. It may be necessary to service arm with ANCO's Wet Arm Washer Kit #48-03, #48-04 or #48-16. Dry arms may be converted to "Wet Arms" by use of these same kits.
